

GRADING SYSTEM OF ESIEE PARIS

EVALUATION OF COURSE UNITS

For each course unit, a grade representing the level of skills acquired is determined: from A to E, or FX, or F.

- A** : Excellent : the student acquired more than 90% of the target skills
- B** : Very good : the student acquired more than 80% of the target skills
- C** : Good : the student acquired more than 70% of the target skills
- D** : Quite good : the student acquired more than 60% of the target skills
- E** : Average : the student acquired more than 50% of the target skills
- FX** : Inadequate; additional work is required
- F** : Very inadequate; it is necessary to relearn the basics.

Once the evaluation of a course unit has produced a mark, the two indicators (the mark and the position) are given to the students.
